EDUCATION

St. Joseph's University   Bengaluru, Karnataka
Master of Science in Computer Science   *Aug 2022 - Apr 2024*

Mount Carmel College, Autonomous   Bengaluru, Karnataka
Bachelor of Science in Computer Science, Mathematics, Statistics   *Jun 2018 – May 2022*

Elective Courses
R Programming, Cloud Computing & Information Storage

EXPERIENCE

Web Developer Intern   Jun 2023 - Aug 2023
Malsar   *Remote, Bengaluru*
- Elevated the company site's aesthetics through polished designs using Wix & Velo, resulting in a significant increase in site traffic and user engagement.
- Designed and implemented event pages to host events online for an audience of 5000+ clients, conducted live events for an audience of 250-300 people at a time.
- Worked closely in direct collaboration with the founder, executives, and stakeholders to fulfill precise project demands.

Web Developer Intern   Apr 2023 - Jul 2023
Loyola Degree College   *Remote, Bengaluru*
- Collaboratively redesigned a modern college website, focusing on enhancing the overall user experience for prospective students, parents, and faculty.
- Streamlined the admissions process by developing an intuitive and efficient online application system, simplifying the application submission and review process for both applicants and admissions staff.

PROJECTS

Milestone Monitor Cataloguing App | *Next.js, Tailwind CSS, Supabase, Vercel, Git*   Jul 2023 – Nov 2023
- Developed an intuitive user interface using Next.js and Tailwind CSS, to streamline event documentation and reporting for university administration.
- Implemented Supabase functionality to ensure robust authentication and role-based access control for administrative staff & department heads.
- Integrated a comprehensive database system utilizing Supabase to enable efficient event management by facilitating CRUD functions & report generation features to produce event reports for specified timeframes.

Loyola Degree College Website | *Figma, Next.js, Tailwind CSS, Vercel, Git*   Apr 2023 – Jul 2023
- Redesigned & rebuilt Loyola Degree College's official website, enhancing aesthetics, navigation, site structure, and interactivity with Figma, Next.js, Tailwind CSS, & Material UI.
- Engineered a robust set of APIs that can be easily integrated into a LMS system, to ensure streamlined access to pages such as the gallery, news & events, and staff information pages.
- Deployed the website seamlessly on Vercel for optimized continuous integration.

Syntaxia 2023 Website | *Figma, HTML, CSS, JavaScript, Bootstrap, Firebase, Git*   Jan 2023 – Feb 2023
- Designed and structured a registration website for 'Syntaxia 2023', a university fest - identified key sections to provide fest information and organizer communication, implemented beautiful UI components with Figma, HTML, CSS, JavaScript, and Bootstrap.
- Utilized Git for version control to aid collaborative development throughout the process.
